Tailwind CSS

Jan 2025

Code With Harry, Virtual

Reactjs

Jan 2025 - Apr 2025

Knowledge Gate, Virtual

JavaScript

Oct 2024 - Nov 2024

Knowledge Gate, Virtual

PORTFOLIO

[Portfolio link ↗](#)

[GitHub link ↗](#)

[Wix link ↗](#)

PROJECTS

[Food Delivery Web- MERN ↗](#)

Jul 2025

Deployed a complete food delivery web application using the MERN stack. Users can securely sign up or log in, browse delicious food items, filter by category, manage their cart, place orders, and track them in real-time. For payments, I integrated Stripe to ensure smooth and secure transactions. Admins can easily add, edit, or remove food items and update delivery status.

[My Portfolio Website- ReactJs ↗](#)

Jun 2025

Designed and deployed a personal portfolio website to showcase my projects and skills. The site is fully responsive and highlights my work, including detailed project descriptions, live demos, and contact information.

[BookStore - Full Stack ↗](#)

Jul 2025

This is a simple full-stack web app focused on demonstrating secure user authentication, client-side routing, and a light/dark theme toggle. Users can sign up, log in, and log out with their account details. The site uses React Router for smooth navigation between pages and includes a modern, responsive design with theme switching.

[A Shoe Website- ReactJs ↗](#)

Apr 2025

Created a fully functional shoe brand website using React.js with a mock backend. The project features smooth navigation between different sections of the site, and includes a complete shopping cart experience where users can easily add items to their cart, view their favourites, and remove items as needed.

SKILLS

- | | | |
|----------------------------|-------------------|-------------------------------------|
| • HTML | • CSS | • JavaScript |
| • C Programming | • C++ Programming | • Python |
| • Internet of Things (IoT) | • Java | • Object Oriented Programming (OOP) |
| • React | • React Router | • Redux |
| • Tailwind CSS | • Bootstrap | • Express.js |
| • Node.js | • MySQL | • MongoDB |
